

## **VISION PATH DEVELOPMENT TEAM**

### **Youth Church Presence over the Years:**

Presently there are 41 youths (ages 0 to 17 years old) who are part of the Redeemer family. Since the year 2002 we have had an average increase of 4.5 children per year. The greatest number increase was 10 during 2002 (the year that our present child care facility opened its doors) along with increases of 6 during the years of 2007 and 2011. From another perspective 74 children have been baptized between 2002 and 2013. Of those children baptized during this time period 42 or 57% entered the Church by way of the child care. Stated another way, three out of every four children become part of the Redeemer family via our child care program. It is fairly safe to assume based on these figures that our present child care program has been a successful mission of this Church.
